Wherein is contained the description of the foure quarters of the yeere: As also a go 步游游游游游 Chronologicall Table of many things worth remembrance, since the Creation, untill this present yeere 1643. collected for the most and part, out of Ecclesiasticall History, and other good Authors, something augmented.

By SAMUEL PERKINS, Well. willer to the Mathematicks.

The ninteerab Edition.

Printed at London by 1. Raworth for the Company 佛 of Stationers, 1643.

A Description of the Foure Quarters of the Yeare, and first or Winter.

A Coroling to the custome of writers in this A kind. Minter Quarter is the first Quarter, which take beginning the 12 day of December, 1642, at which time the Jun entred into the first degree of the cold and dry signe Capricorne, being the most reugte from us in his farthest South declination, causing the dayes with us to be shortest and the nights longest: Which Quarter continuing untill the Sound hath slowly passed through Capricorne, Aquarin, and Pricos. This Quarter doth naturally resemble Old age.

Of the Spring.

Omy VI

This Quarter do had e beginning the 10 of Murch, at which time the Sun entreth into the first minute of Aries, and doth continue while the Sun is passing through these 3 bernall signes, Aries, Taurus, and Gemini. This Quarter doth recemble growing youth.

Of Summer.

O in S a m

The Summer Duarter doth take his beginning when the Sunne doth enter into the first digree of Cancer, which will be this piere the 12 of June, and doth continue whilest the Sunne passeth through Cancer, Leo, Virgo, a ware the dayes longest, and the appe hottest, therefore, but for necessity, bid Physiche Avieu.

Of Autumne.

oin m m 7

A Attume or Harvest Quarter commonly called the Fall of the Lease, of some the Latter Spring both begin when the Sun doth enter into the first degrée of Libra, making agains the day and the night of equal length: Thich will be this years, the 13 of September, and doth continue whilest the Sun doth passe through Libra, Scorpio, and Sagittarius. This quarter doth fitly resemble declining age and Phlegmatick complexion.

A briefe Chronologicall Description of many things worthy of memory, that have hapned fince the Creation unto this present years of our Lord 1643. With the years of the World in which they hapned, in the first Columne, faithfully collected from many good Authors.
